

Degree Course in Medicine & Surgery in English Language

ADE

A.A. 2024-2025

TITLE	Sudden Cardiac Death				
PROF.	Giuseppe Limongelli				
SCIENTIFIC DISCIPLINARY SECTOR (SSD)	MEDS-07/B				
GENERAL AND SPECIFIC OBJECTIVES	<p>Sudden cardiac death in the young is a tremendous shock for the whole family. The younger the victims, the higher the probability that a rare genetic heart disease is the underlying cause, sudden cardiac death often being the first symptom of the disease in the family. Therefore, a diagnostic work-up is urgently needed because with a confirmed diagnosis family members at risk can be identified and protected. Therapeutic interventions and lifestyle changes can prevent dramatic outcomes in other family members. Detecting these cases should therefore be a top priority for the healthcare system. Patients and their families are therefore urgently calling for laws that enable autopsies and genetic testing to be performed in accordance with European and international guidelines after sudden cardiac death and ensure that they are adequately reimbursed by the health insurances. All problems that will be discussed in this event.</p>				
ACTIVITY TYPE	PROPOSED ACTIVITY	MINIMUM DURATION (HOUR)	ADE DURATION (HOUR)	CFU	PROPOSED CFU
LABORATORY ACTIVITY /INTERNSHIPS	<input type="checkbox"/>	13	_____	1	_____
MONOGRAPHIC COURSES	<input type="checkbox"/>	> 13	_____	1	_____
INTERACTIVE SEMINARS	X	≥ 6,25 (up to 12,5)	6	0,5	1
