

ADE
A.A. 2023-2024

TITLE	Clinical cases of kidney cystic patients				
PROF.	Miriam Zacchia				
SSD	MED/14				
GENERAL AND SPECIFIC OBJECTIVES	The main objective of this activity is to promote the acquisition of theoretical and professional knowledge on major tools aiming at analyzing kidney functional and structural abnormalities in cystic disorders. Clinical cases of different forms of kidney cystic diseases will be presented, underlying clinical differences and specific features on imaging analysis. During the course a wide range of kidney cystic disorders will be presented, from inherited disorders, as the autosomal dominant and recessive kidney diseases, to acquired cystic kidney diseases.
